Composer groups:

- **MusicSpoke**
 - Website: musicspoke.com
 - Who (selected list): Andrea Ramsey, Braeden Ayres, Brandon Ulrich, Dale Trumbore, Daniel Gawthrop, David Childs, Gary Packwood, Kurt Knecht, Paul Carey
 - Objective: "We are a marketplace committed to musicians. We don't publish pieces of music. We find gifted composers that we believe in and give them the tools and freedom to promote themselves.... We are committed to connecting conductors and performers with composers. When you purchase a piece, you will be put in contact with the composer so that you can ask questions, set up a Skype rehearsal, do a commission, or just send some fan mail."
- **Graphite Publishing** [includes much of what used to be known as Independent Music Publishers Cooperative]
 - Website: graphitepublishing.com
 - Who (selected list): Paul Ayres, Eric William Barnum, Abbie Betinis, Matthew Culloton, Ola Gjeilo, Jocelyn Hagen, Timothy C. Takach, Dale Warland, and MANY MORE
 - Objective: "Online vocal music publisher of digital scores... Think about Graphite as an art gallery rather than a museum. In a museum one will find one or two works by many different artists in an effort to represent a certain style, or period. A gallery represents a few artists, artists who create with a similar view to excellence and skill. Here you'll find a large catalog of music by a cultivated list of composers."
